Everything started in the distant 1952, when Ioannis Siames manufactured for the first time the famous soft candy known as Charleston. He established the first family confectionery company in 1965, producing traditional sweets and candies, using natural pure ingredients, in a small range of flavors, wrapped in the traditional parchment paper and packed in jars.

All this knowledge, the secrets of candy-crafting, the passion of creation and the traditional recipes, passed down to the 2nd generation and the 3rd generation, his grandchildren, John and Spiros Bezerianos who established LAVITA CANDIES in 2011. Since then the company made small and steady steps, by focusing on pectin jellies and specializing in this product. Over the last 3 years the company has heavily invested in new machines and personnel in order to increase its production capabilities and at the beginning of 2025, LAVITA is proud to have transferred its facility to a new modern factory in the Industrial Zone of Patras, Greece.

LAVITA has focused its efforts in the export sales of its products, since its creation by John and Spiros and today the company's products can be found in more than 15 countries in all 5 continents. These products are either with the LAVITA brands or with Private Label and have been produced in more than 20 flavors.

In 2018 a new product, ROLLOVER is introduced. It's the only roll in the world consisted of soft pectin jellies. In 2023 LAVITA introduced for the first time its "SOUR BOOM" (sour) pectin jellies packed in a new format of a small pack of 24g.

Back again in 2012, just before LAVITA started operating, John and Spiros managed to perfectionate their unique recipe for Sugar-Free pectin Jellies. They got the recipe patented, until 2032. Today in 2025, in the new factory, with modern equipment and the owners' traditional recipes, LAVITA starts its production of Sugar-Free pectin jellies and introduces them to the world.

With such innovative steps and great plans for the future, LAVITA is present for the first time since its concept, as an exhibitor, in the biggest confectionery exhibition in the world, ISM Cologne in Germany in 2025.

With quality products, innovations, ambitions and sweet dreams the LAVITA team heads into the future.

P.S.: We would like to thank our customers that helped us achieve everything until now.
